

Architectural Change Acknowledgement

1. I understand that construction of certain projects requires that I obtain a City of Mukilteo/Snohomish County (and possibly other government jurisdiction) building permit(s). Approval of the proposed work by the ACC does not affect or remove that requirement. ACC review is based on HHCO's internal guidelines and does not specifically apply the guidelines of the City of Mukilteo, Snohomish County or any other applicable governmental entity.
2. I understand that starting any work prior to written ACC notification or approval is not allowed and that if alteration or construction is done and this application is not approved, I may be required to return the property to its former condition at my own expense and I may be required to pay all legal expenses incurred by myself and/or the Harbour Heights Community Organization Association if legal action becomes necessary.
3. I understand that members of the Architectural Change Committee may enter on my property to make reasonable inspection of the proposed work locations only with my prior approval and I hereby give my permission for such access. Without this approval, the ACC may be forced to deny the proposed work due to lack of facts on which to base a decision.
4. I am aware of the HHCO Covenants, Conditions and Restrictions and House Rules & Regulations regarding neighborhood standards, and the review process.
5. The proposed work must be finished by the agreed upon estimated date of completion on the application to avoid potential fines. Work not completed within six (6) months of commencement, per the CC&Rs, may incur liens, and/or other legal action.
6. I understand that authorization is contingent upon all work being completed in a workman-like manner with quality equal to or better than the original home construction.

Architectural Change Review
